Features:

- ◆ Smaller in size;
- ◆ Lightweight and portable;
- ◆ High quality metal design;
- ◆ Professional acoustic foams;
- ◆ Can be used together with any recording occasion.

Specifications:

Dimensions:

(W) 425mm, (H)305mm, (D)155mm

Weight: 1.2KG

Assembly:

1. Directly connect the bottom threaded part of the vocal booth to the mic stand's moving tube top part(5/8");
2. Attach the shock mount onto the microphone supporting part, then put the microphone into the shock mount, and in the meantime adjust the mic's position in the vocal booth. Now the vocal booth is ready to work.
